

Shotton Hall Primary School

Working together to

SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Hi Class 5! Here are your next activities for home learning. As we are thinking about growing as part of our topic work, this is a great chance to do some gardening as part of your learning. Which plants are weeds in your garden? Why are they called weeds? I have already been digging and weeding in my garden, but there's still lots more for me to do!

Enjoy your day,

Miss Elwick

Maths

Today's work is on www.mymaths.co.uk which will need you to login with the username and password sent home on a letter with your first home learning pack. If you have lost this, please contact the school office as they should be able to access your details.

Today you should complete the lesson – **Counting 2** which is about counting in 2s, 3s, 5s and 10s, and recognising sequences of numbers.

English

This sheet has different activities for practising correct use of spelling, punctuation and grammar. Just write your answers on paper, and then check the answer sheet. How many did you get right?

I have also included a list of spellings that you could practise this week. They cover words that use an 'o' to make an 'u' sound like mother. You can also use this opportunity to practise your neat, cursive handwriting.

Topic work - Growing

What plants are growing in your garden, or can you see when walking close to your home? How many different plants can you correctly name? You could write a list and draw some of these plants or you could use the Plant Hunt Sheet uploaded on our site to help you.

You could even make your own Plant Hunt Sheet using the plants you have found and challenge someone in your family to spot all the plants!
