

Shotton Hall Primary School

Working together to

SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Hi Class 5.

Here are today's activities. We are starting to look at shapes this week – particularly 2D shapes (flat shapes). How many 2D shapes can you name? You could have a 2D shape hunt. How many different 2D shapes can you find in your house?

Enjoy your day,
Miss Elwick

Maths

Today's work is on www.mymaths.co.uk which will need you to login with the username and password sent home on a letter with your first home learning pack.

Today you should complete the lesson – **2D and 3D shapes** which is about naming and describing shapes.

English

This sheet has different activities for practising correct use of spelling, punctuation and grammar. Just write your answers on paper, and then check the answer sheet on Friday.

I have also included a list of spellings that you could practise this week. They cover words that use an 'ey' to make an 'ee' sound like in the word **key**. Talk with an adult about what these words mean. Can you say them in a sentence?

You can also use this opportunity to practise your neat, cursive handwriting.

Topic work - Growing

Read the information in **Plants We Eat** and use the pictures to name and discuss the different parts of plants that we eat. The document asks you to make a list of foods from plants and identify which parts can be eaten, for example stem, root, fruit. After reading the information, design your own meal (for example a salad or a stir-fry) and identify the parts of plants you have used. Perhaps sometime this week you could help make some food, like a stir-fry, and identify the parts of plants to be eaten.
