

## Maths

Can you solve these place value problems?

I think of a number, add ten, subtract one hundred and then add one.

My answer is 256

What number did I start with?

Explain how you know.

What can you do to check?

## Odd One Out

100, 150, 200, 215, 300

Which is the odd one out? Explain how you know.

## Answers

**Q1 215 is the odd one out, the others are all multiples of 50 and 10. The number should be 250.**

**Q2 The starting number is 345**

**To work this out I used the inverse operations**

**Starting with  $256 - 10 = 246$**

**$246 + 100 = 346$**

**$346 - 1 = 345$**

**To check I used 345 as the number I was thinking of then followed the instructions**

**$345 + 10 = 355$**

**$355 - 100 = 255$**

**$255 + 1 = 256$**

## English

Re-read the story 'The Colour of Home'. How does Hassan feel at the beginning of the story?

Write at least 5 adjectives to describe Hassan's emotions. You are not allowed to use sad or lonely.

**Some adjectives you could have used include upset, sorrowful, distraught, miserable, heartbroken, wistful, distressed, melancholy, dismal.**

**Foundations Subject – PE**
