SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Year Three 24/4/20

Maths

Let's look at ordering numbers.

Fluency

Use the symbols $<$, $>$ or $=$ to make the statement correct.

Reasoning

Whitney has six different numbers.

She put them in ascending order then accidentally spilt some ink onto her page. Two of her numbers are now covered in ink.

214,  243, 256,  289

Mastery

True or False?

When ordering numbers you only need to look at the place value column with the highest value.

What could the hidden numbers be?
Explain how you know.

English

Look at the next two pages of the story (additional resource 1). Draw what you think the next page will be.

Foundation Subject – French

Now that we've all learned about different places in the world in our previous geography lessons, our new French topic is 'Countries and Cities'.

Here are some flags and the names of some countries in French. See if you can use your research skills (or the help of some clever, geography-loving adults!) to find the name of the country in English and match it to the correct flag!
