

Maths

This week we will be thinking about repeating patterns. Have a look around the house and outdoors to see if you can see any repeating patterns. Here are some ideas!

Use objects to make repeating patterns, such as 'sock, shoe, sock, shoe', or 'leaf, stone, leaf, stone'. You could try making patterns with 3, 4 or even 5 objects! Have a go at making a pattern for someone else in your house to follow!

We can also make repeating patterns using our bodies. Click the link below to listen to a song all about patterns. Have a try at singing along and doing the actions.

<https://www.youtube.com/watch?v=hoFhVdYsmPg>

Can you make up your own patterns using your body?

Literacy

We are going to be working on the well-known fairytale 'Little Red Riding Hood'. Share the story of Little Red Riding Hood using the link below.

<https://www.worldbookday.com/videos/little-red-riding-hood-2/>

Talk about the story and try to answer the following questions:

Where is the setting for the story?

Who are the characters in the story?

Where does Grandmother live?

What does Little Red Riding Hood take for her Grandmother?

How is the wolf feeling when he goes into Grandmother's cottage?

Where is Grandmother hiding?

What does the wolf say to Little Red Riding Hood?

What happens at the end of the story?

Now think about your favourite part of the story. Draw a picture of it and try to write a sentence about what happened.

Foundation Subject – The World/Creative

Have you ever been for a walk in the woods or the dene like Little Red Riding Hood? You may have noticed that there are many different types of trees. Their leaves are very different too.

Can you find out about leaves and match the leaf to the tree?

horse chestnut

ash

beech

oak

Collect some different leaves and other natural objects from you garden or while you are out for your daily exercise. Have a go at using them to make a picture of a woodland creature. Here are some ideas. Have fun!
