SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Year Three 20/4/20

Maths

This week we are going to think again about 1, 10 or 100 more or less.

Fluency

Complete the table.

100 less	Number	100 more

Reasoning

I think of a number, add ten, subtract one hundred and then add one.

My answer is 256

What number did I start with?

Explain how you know.

What can you do to check?

Problem Solving

A counter is missing on the place value chart.

Hundreds	Tens	Ones

What number could it have been?

English

We're going to be working on a new book for the next few weeks. The book we're going to look at is called 'Flotsam' by David Weisner. Look at the cover of the book and the first page (see additional resources p1). What do you think the book might be about? Where do you think the book might be set? The title is a clue to the story so you might need to use a dictionary to find out what 'flotsam' is...

Foundations Subject – Geography

This half term in Geography we are going to look at natural disasters and answer the question 'What Makes the Earth Angry?' A natural disaster is something which happens on Earth naturally but causes a lot of destruction. We're going to start by looking at volcanoes. I know some of you have already been making these at home so this is good timing for you!

I can locate the world's main volcanoes.

Use the DK site. To find it, type 'Volcano facts DK find out' into Google. Then click on each subheading on the volcano to help you find the answers.

1. What is a volcano?
2. Find the names of five of the Earth's volcanoes.
3. Which of the volcanoes erupted most recently?
