

## Maths

This week we will be focusing on adding more. For this activity you may want to use a prop to help you such as pasta.

Add 1 more spot to each lady bird and then write the number sentence.

You may also want to play 'hit the button' a great game for adding numbers together.

## Answers

$$1+1=2$$

$$3+1=4$$

$$5+1=6$$

$$2+1=3$$

$$4+1=5$$

## Literacy

This week we are continuing to work on the well-known fairytale 'Little Red Riding Hood'. Share the story of Little Red Riding Hood using the link below.

<https://www.worldbookday.com/videos/little-red-riding-hood-2/>

In Class 1 we love using role play to re-tell a story. With a grown-up or brother/sister could you use role play to re-tell Little Red Riding Hood. You might even want to use props to become a character, such as a red jacket, hoodie and a basket for Little Red Riding Hood or glasses for wolf grandma or create masks for each character.

It would be great if you could take some photographs so we can see you dressed up as a character from this fairytale. Have fun!

## Answers

**There are no right or wrong answers with this work! Talk with your grown-up to make sure you were able to re-tell the story correctly.**

## **Foundation Subject – The World/Creative**

This week we will be learning about ponds and the animals that may live within them. With your adults at home, try to write a list of all the animals that live in ponds.

Pick your favourite animals from your list and draw a picture of one in the centre of a piece of paper.

When your picture is drawn, work with your adult to research facts about your animal on the internet or using any books you may have at home. Make sure you remember to write down all of the different facts you find about your animal in the space around your picture. Good luck!

### **Answers**

**Because this work was researched based, there are no answers for this activity. Instead, talk with you adult about your work to ensure you understand why your animal lives in a pond.**
