Year Three 27/4/20

Maths

Recap counting in 50s. Count from 0 to 1000 in 50s. Ask an adult to listen and check that you're correct!

Fluency

Circle and explain the mistake in each sequence.

50, 100, 105, 200, 250, 300 ...

990, 950, 900, 850, 800 ...

Reasoning

Which is quicker: counting to 50 in 10s or counting to 150 in 50s?

Explain your answer.

Mastery

Always, Sometimes, Never

Sort the statements into always, sometimes or never.

- When counting in 50s starting from 0, the numbers are all even.
- There are only two digits in a multiple of 50
- Only the hundreds and tens column changes when counting in 50s.

English

Look at the next two pages of the story (additional resource 1). Can you see what has been washed up now? Today you need to write the dialogue (the speech between characters) from the picture that I've outlined in red. You need to include all of the correct features of speech. Remember that:

- The first inverted comma goes before the first word spoken and the second one goes after the last word spoken
- Speech always starts with a capital letter
- A reporting clause is needed to tell the reader who is speaking and how they said it
- A comma separates the speech and reporting clause, so if the reporting clause is after the speech, the speech will end in a comma. If it is before, there will be a comma after the reporting clause and the speech will end in a full stop, exclamation mark or question mark
- New speaker, new line

Foundation Subject – Design and Technology

Our design and technology for this term is food. We are going to be thinking about the Mediterranean country of Italy and which dishes Italian people enjoy cooking and eating.

I can research foods and dishes popular in Italy.

Today I would like you to do some research and find out which foods or dishes are popular in Italy. You can present this however you like in your homework book or on a piece of paper. You could even use the computer to present your findings on a word document or powerpoint. If you want to print it you can or if you can't then just save it. Why do you think these foods are popular in Italy?
