Maths

Answers -

Using your knowledge of counting in twos, count the objects below (in twos) and complete the sentences. Can you represent the total number of gloves in questions 3 and 4 on tens frames? (Remember you can draw your own tens frames on paper).

Q1.

How many socks are there?

There are **18** socks in total.

Q2.

How many socks are there?

There are **36** socks in total.

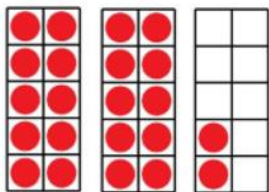

Q3.

How many gloves are there?

There are **22** socks in total.

Represent the gloves using tens frames.

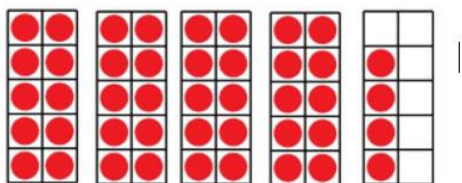

Q4.

How many gloves are there?

There are **44** socks in total.

Represent the gloves using tens frames.

Q5. This one is a tricky one!

Always, sometimes, never...

When you count in twos,
your digits will be 0, 2, 4,
6, 8

Prove it!

Sometimes. It depends on your starting number.

For example, 1, 3, 5...

Also, for 12, 14, 16, the tens digit is 1.

English

To warm up, watch and dance along to the following video to remind yourself of what a suffix is.

Today we will be looking at suffix's, more specifically, adding 'ed' to change the meaning of words. Use the worksheet in our resources section and follow the instructions carefully. If you don't have a printer at home, you can write your answers onto a piece of paper instead.

For an extra challenge, try to add 'ed' to the following words and try to write a sentence for each one.

- dream
- look
- need
- cool

Answers

- a) *Wished*
- b) *Talk*
- c) *Painted*
- d) *Stay*
- e) *Asked*

Challenge:

Talk to your adult about the sentences you created. Some examples of sentences you could have written are:

The girl dreamed of becoming a dancer.

The monkey looked at the banana.

The cake needed more icing.

The woman cooled the pie before eating it.

Foundation Subject – Science

I hope you enjoyed investigating planting seeds and looking at different parts of a plant.

Here are some photos of seeds that I planted a few weeks ago. They have not flowered yet but when they do, I will take some photos to show you all.
