

Maths

1 Calculate.

$$2,140 + 794 = \underline{2,934}$$

$$10,000 - 4,192 = \underline{5,808}$$

$$3,261 \times 7 = \underline{22,827}$$

$$276 \div 4 = \underline{69}$$

- 5 Amy completes the calculation $145 \div 6$.
She gets a remainder of 7.
Explain how you know Amy is incorrect.

If the divisor is 6 then the remainder cannot be greater than 5

- 6 Pencils are put into packs of 24.
There are 3,608 pencils.
How many packs of pencils can be made?

150 full packs 8 pencils left over.

How many more pencils are needed to make another full pack?

16

- 7 Complete the missing numbers.

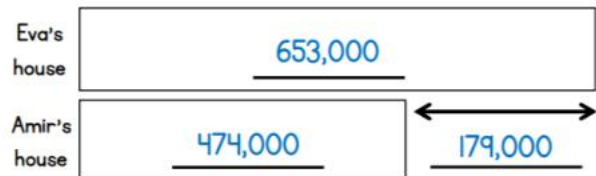

$$8 \times 6 = 4 \times \boxed{12}$$

$$\boxed{222} \div 6 = 444 \div 12$$

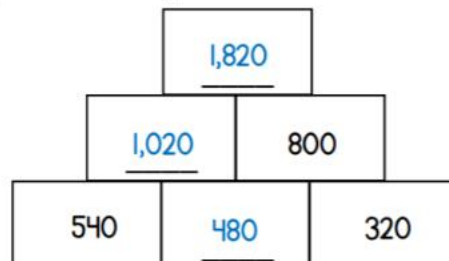

- 2 Complete the missing digits.

	2	3	7	4
+	3	1	4	3
	5	5	1	7

- 3 Eva's House is worth £653,000.
Amir's house is worth £179,000 less than Eva's house.
Complete the bar model to represent the information.

- 4 Complete the addition pyramid.

English – relative clause ‘relatives’ activity

Check your work with an adult using your revision guide or the relative clause checklist I gave you on Wednesday's worksheet.

Foundations Subject – Rights Respecting

There was no right or wrong answer for this work that I set. I thought it was just a lovely opportunity for you to get creative - I would love for anything you did do to be brought back into school on our return.
