

Shotton Hall Primary School

Working together to

SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Wednesday 6th May

Maths

Today, you will be completing the maths activities on the separate maths document. There is a sheet for Year 1 and a sheet for Year 2. You can print the sheet out if you have access to a printer, or you could just write the answers on paper.

English

On Monday you wrote the beginning and middle of the story 'The Snail and the Whale'. Today I would like you to think about the ending. Could you use your own ideas to change the ending of the story? The snail went to the school for help from the children but could he have gone for help somewhere else? Think about 'the local football team', could they help? Maybe the shoppers in the supermarket? Or what about the surfers in the sea?

This is your ending. Let your imagination run wild!

Remember capital letters, full stops and spaces between words.

Reading

We will be working on reading comprehension for this week. Today you will read a non-fiction text and answer the questions provided. You can print the questions off or write the answers down on a piece of paper.

Year 1 - How to care for a dog

Year 2 - Sunflower plant life cycle

Once you have completed your work, you can check your answers.

No peeking beforehand though!

Foundation Subject – P.E
Mr Scorers sports challenges

Today I would like you to take part in Mr Scorer's sports challenges. Begin with Ball Rebound.

Ball Rebound

This challenge works on your throwing, catching and hand eye coordination. Stand around a Metre away from the wall and use underarm throws. To start with try and compete 20 catches without dropping the ball. If you compete this you could either move backwards or if space is tight try one handed catches. If you can do 20 of these alternate between left hand thrown right hand catch then swap. To make this easier simply use a larger ball. When you can master this why not try and see how many consecutive catches you can do.
