Yr 2, 22.05.20

Maths

Today's work, I have set a task for you on www.mymaths.co.uk which will need you to login with the username and password sent home on a letter with your first home learning pack.

You will be working on 'Number bonds'. Let's see how good you are!

Remember you can check your answers!

Spellings

Today you have a list of spellings to practise. They are common exception words, which mean they are words we use often but you don't spell them the way they sound so they need to be learned.

Can you write each word in a sentence? You can also use this opportunity to practise your neat, cursive handwriting.

Spelling practise: Look, say, cover, write, check

Look	Say	Cover	Write	Check	Write	Check
the			<i>thee</i>	✗	<i>the</i>	✓
door						
floor						
poor						
because						
find						

Now choose two of the words to write 2 different sentences (using 1 word in each).

1.

2.

Foundation Subject – Science

If you can't print off just write your answer and draw your pictures on a piece of paper.

Watch and read the power point 'Growing plants' then answer the questions.

Why do these fruits have so many seeds inside them instead of just one? Write your answer in as much detail as you can.

papaya

watermelon

kiwi fruit

strawberry

There are lots of ways seeds can travel from one place to another. This is known as seed dispersal. Can you think of three ways seeds are dispersed? Draw a picture showing the different ways below:
