

**Shotton Hall Primary School**

Working together to

**SHINE**

**Successful, Happy, Inspired and Nurtured towards Excellence**

Hi Class 5. Here is your home learning for Friday. How many 3D shapes have you found around your house? Did you find a triangular prism? That is a tricky one, although I often get one of these at Christmas!

If you fancy some singing, you could try learning this 3D shape song from youtube:

<https://www.youtube.com/watch?v=2cg-Uc556-Q>

Keep yourself busy and have a good weekend,

Miss Elwick

### **Maths**

We are continuing our work on 3D shape. Try out the 3D shape quiz, then complete the questions investigating the faces on shapes. The answers will be uploaded on Monday.

### **English**

Look at picture 'About to hatch' and read the sentences. Can you identify the verbs (action words) in the sentences? These sentences could be improved by using more exciting, powerful verbs like strolled instead of walked. Could you find some more exciting verbs?

Then continue the story. What happened next? I have included some writing targets to remind you of the features you should be including in your story. Remember to check and improve your own work, then show it to an adult. Have you achieved all your targets?

### **Topic work**

Watch the youtube clip below to see more examples of Joan Miro's art.

[https://www.youtube.com/watch?v=O9rAdb\\_ULp0](https://www.youtube.com/watch?v=O9rAdb_ULp0)

Then watch this clip showing how to use 2D shapes to make art inspired by Joan Miro.

<https://www.youtube.com/watch?v=ykjEftfxQZI>

Use this technique to make your own shape creature artwork. You could cut up paper to make shapes like squares, circles and triangles, or you could just draw and colour them if you like. Then add lines and symbols to complete your picture.
