Working together to

SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Hi Class 5. Here are your learning activities for Monday. I always feed the birds in my garden, and as I'm at home more, I've loved watching them coming for food, or a splash in the bird bath. Some of them are even taking food away with them, so I think they are feeding babies in their nests. What birds do you see in and around your garden?

Enjoy your day,
Miss Elwick

Maths

Complete the problems saved on the separate maths document.

You can print the sheet out if you have access to a printer, or you could just write the answers on paper, or in your maths homework book. The answers will be uploaded on Wednesday.

English

Read the information text 'Birds in your garden', and then answer the comprehension questions on the next page of the document. The answers are at the end – so don't peek! You can mark them with an adult when you are finished.

Which birds can you see in your garden? You could make a 'Birds in my garden' fact sheet, with pictures and name labels if you like.

Topic work – Art

Our art topic this half-term focuses on **Joan Miro**. He was a Spanish artist famous for his paintings and sculptures. Read the document and look closely at how he painted his pictures.

We are going to make a picture of a house and garden in the style of Miro.

Choose lots of things from your own life to draw in the house and the garden.

Draw things carefully from your memory making some things look realistic, but also try making some things seem smaller or bigger than they really are. You can use any colouring materials you like (crayons, pencils, pens, paints).

Your finished picture should tell people something about you.
