Reasoning:

Tommy is not correct as he has partitioned 25 incorrectly. He could have divided by 25 twice. The correct answer is 24.

Problem solving:

Alex is wrong. Both of the numbers are 10 times bigger than the numbers in the multiplication, so the correct answer is 6.

Where Peanuts Grow

Peanuts grow in warm areas throughout the world. They grow best in sandy soils. China, India, the United States, and Nigeria grow most of the world's peanuts. The peanut plant is a low bush.

Peanut Allergies

Peanut allergy occurs when your immune system mistakenly identifies peanut proteins as something harmful. Direct or indirect contact with peanuts causes your immune system to release chemicals into your bloodstream.

Benefits of Peanuts

Peanuts are an especially good source of healthful fats, protein, and fibre. They also contain plenty of potassium, phosphorus, magnesium, and B vitamins.

Other Interesting Facts

Did you know that peanuts are used in dynamite? This is because peanut oil, which is extracted from peanut, is used to make glycerol, a main ingredient in nitro-glycerine. The main product in a dynamite is nitro-glycerine
