

Maths

Continuing our work on addition, we will once again be adding amounts together. Today you need to add the Numicon together and write a number sentence for each one on a piece of paper.

Good luck!

Literacy

Our tricky words are so important to help us with our writing. Today practise writing your tricky words from phase 2 and 3 (see the tricky word list). You might even want to get creative and go outdoors to use chalk, shaving foam, or paint to write your tricky words.

Remember to form your letters correctly and a grown-up will check the spelling of your tricky words.

As an extra challenge you might even want to think of some sentences to include the some of the tricky words and try to write your sentences. Or write some tricky words from phase 4.

Foundation Subject – The World/Creative

Following on from our work on Little Red Riding Hood, today you are going to have a healthy picnic. You may want to pack up your healthy picnic and have it in the garden or enjoy it somewhere in your house. What types of food are healthy and would be good to put into your healthy picnic?

Using some paper or card, you are going to write labels for your picnic and then take photographs of all your hard work. Have fun!
