

Joan Miro - Figure, Dog, Birds

Can you create your own family portrait inspired by the figure and dog from Miro's picture?

Draw your family, including any pets, using lines and shapes. Remember they don't need to have a lot of detail or be realistic.

Use a limited number of colours on your picture, like red, yellow, green blue and black. Go over the outlines of your figures in black to make them really stand out.

Here are more examples of Miro's work to inspire you!
