**Year Three answers 11/5/20**

Maths

This time we're going to revisit adding one digit numbers to three digit numbers, crossing the tens boundary. That means we have to exchange. Try these Fluency questions for today.

Fluency

We can use Base 10 to solve 245 + 7

Use this method to calculate:

357 + 8 = 365   286 + 5 = 291   419+ 1 = 420

564 + 8 = 572   716 + 9 = 725   327 + 5 = 332

178 + 9 = 187   826 + 7 = 833   359 + 8 = 367

English

I've uploaded the last pages of 'Flotsam'. I hope you enjoyed reading this book!

Why is the book called 'Flotsam'? I think the book is called Flotsam because flotsam is something that is lost in the sea. We're not always sure where it has come from or how long it has been in the water. Flotsam is mysterious and so is the story. What do you think?

Foundation Subject – Design and Technology

When we are thinking about food, we need to be aware of what constitutes a healthy diet and how to be healthy and hygienic when making and preparing food. Can you produce a food safety poster informing people about what a healthy diet is and how to prepare and make food hygienically? You might want to talk to a grown up first or do a little bit of research (see food safety attachment).

My poster would remind people about washing your hands before starting any work in the kitchen, washing any fruit of vegetables, taking care with heat or sharp knives and using different utensils for raw meat. Did you put any other rules on your poster?
