Year Three 11/5/20

Maths

This time we're going to revisit adding one digit numbers to three digit numbers, crossing the tens boundary. That means we have to exchange. Try these Fluency questions for today.

Fluency

 We can use Base 10 to solve $245 + 7$

Use this method to calculate:

$357 + 8$

$286 + 5$

$419 + 1$

$564 + 8$

$716 + 9$

$327 + 5$

$178 + 9$

$826 + 7$

$359 + 8$

English

This is our last day working on Flotsam. When the camera goes back into the sea, it takes more pictures. Remember how wild, wonderful and strange the previous photos were? You're going to use your imagination to draw the next photo that the camera takes as it moves through the ocean. Make your picture as detailed as the ones in the book. Write a description to go with it which includes everything you've practised over the last three weeks. On Wednesday I'll show you the rest of the story.

In the meantime, can you answer this question?

Why is the book called 'Flotsam'?

Foundation Subject – Design and Technology

I hope you enjoyed researching some Italian foods in your last DT lesson. This week I would like you to try some Italian foods, if you can find some in the shops. Please don't worry if you can't get any! See if you can try some of the foods you found out about a couple of weeks ago, like different types of ham, cheeses and pasta. Did you like them? Why?

When we are thinking about food, we need to be aware of what constitutes a healthy diet and how to be healthy and hygienic when making and preparing food. Can you produce a food safety poster informing people about what a healthy diet is and how to prepare and make food hygienically? You might want to talk to a grown up first or do a little bit of research (see food safety attachment).
