

Year Four 11/5/20

Maths

This week I would like you to practise subtraction using the written method. There may be exchanges so think carefully! See additional sheet for a subtraction reminder.

Fluency

Dexter is using place value counters to calculate $5,643 - 4,316$

Use Dexter's method to calculate:

$$4,721 - 3,605 = \quad 4,721 - 3,650 = \quad 4,172 - 3,650 =$$

$$1116 \quad 1071 \quad 522$$

Dora and Mo are collecting book tokens.

Dora has collected 1,452 tokens.

Mo has collected 621 tokens fewer than Dora.

	621	831
	1452	

Represent this scenario on a bar model.

What can you find out?

Mo has 831 tokens.

Together they both have $1452 + 831 = 2283$

Reasoning

1,235 people go on a school trip.

There are 1,179 children and 27 teachers.
The rest are parents.

How many parents are there?

Explain your

Add children and teachers together first.

$$1,179 + 27 = 1,206$$

Subtract this from total number of people.

$$1,235 - 1,206 = 29$$

29 parents.

Mastery

There are counters to the value of 3,470 on the table but some have been covered by the splat.

$$3470 - 1260 = 2210$$

Possible answers include:

- two 1000s, two 100s and one 10
- twenty-two 100s and one 10
- twenty-two 100s and ten 1s

What is the total value of the counters?
How many different counters are there?

English

I've uploaded the last pages of 'Flotsam'. I hope you enjoyed reading this book!

Why is the book called 'Flotsam'? I think the book is called Flotsam because flotsam is something that is lost in the sea. We're not always sure where it has come from or how long it has been in the water.

Flotsam is mysterious and so is the story. What do you think?

Foundations Subject – Design and Technology

I hope you enjoyed researching some Greek foods the other week. This week I would like you to have a try of some Greek foods, if your grown ups can find some in the shops when they go. Please don't worry if you can't get any! Can you try some or all of these foods – feta cheese, houmous, pita bread, tzatziki, olives. Write down what you tried and if you liked it or not. Why did you like it or not like about it?

When we are thinking about food, we need to be aware of what constitutes a healthy diet and how to be healthy and hygienic when making and preparing food. Can you produce a food safety poster informing people about what a healthy diet is and how to prepare and make food hygienically? You might want to talk to a grown up first or do a little bit of research (see food safety attachment).
