

Problems of the Day 2020

Day
7

- 1** There are 25 children in a class. The bar chart shows the number of children in the class who walk to school each day.

- (a) How many more children walked on Monday than on Wednesday?
- (b) One of the days it rained. Which day do you think it was? Explain to your friend.
- 2** How many children did not walk on each day?
