

Year Four 13/5/20

Maths

We are continuing with subtraction today and using the written method. Remember you can also draw counters in a place value chart if that helps. If you are still finding column subtraction difficult then you may prefer to just make your own subtractions up using 3 or 4 digit numbers to practise the method – just remember to put the largest number first!

Fluency

Use place value counters and the column method to calculate:

$$5,783 - 844$$

$$6,737 - 759$$

$$8,252 - 6,560$$

$$1,205 - 398$$

$$2,037 - 889$$

$$2,037 - 1,589$$

A shop has 8,435 magazines.
367 are sold in the morning and 579 are sold in the afternoon.

How many magazines are left?

There are ____ magazines left.

Find the missing 4-digit number.

	Th	H	T	O
	?	?	?	?
+	4	6	7	8
	7	4	3	1

Reasoning

Amir and Tommy solve a problem.

When I subtract 546 from 3,232 my answer is 2,714

Amir

Tommy

When I subtract 546 from 3,232 my answer is 2,686

Who is correct?
Explain your reasoning.
Why is one of the answers wrong?

Mastery

There were 2,114 visitors to the museum on Saturday.
650 more people visited the museum on Saturday than on Sunday.

Altogether how many people visited the museum over the two days?

What do you need to do first to solve this problem?

English

We're going to look at spelling for our English lessons this week.

The first spelling rule we're going to look at is using the letters 'ou' to make the 'u' sound. These letters are always in the middle of the word, but they don't always make the 'u' sound. For example, the 'ou' in 'trouble' make an 'u' sound, but the 'ou' in 'cloud' makes an 'ow' sound. We're only going to look at words that include 'ou' making the 'u' sound.

There are two parts to today's task.

1. Write down as many words as you can that use 'ou' to make the 'u' sound. One example of this would be 'tough'.
2. Watch the video Mrs Sands has put on for you. See if you can rearrange the letters of the anagrams she gives you to find some words that use this spelling rule.

Foundation Subject – Science

You've looked a lot at the characteristics (features) of invertebrates. It is by looking at the characteristics of a creature that we can identify what kind of creature it is. Have a look at the Characteristics Information I've included. See if you can write down the characteristics of the eight living things. I'll be extra impressed if you can answer the challenge question...
