Year Four answers 29/4/20

Maths

We're continuing with place value and today you are going to compare 4-digit numbers using $>$, $<$, or $=$.

Fluency

Complete the statements using $<$, $>$ or $=$

Circle the smallest amount in each pair.

Two thousand, three hundred and ninety seven 3,792

6,000 + 400 + 50 + 6 6,455

9 thousands, 2 hundreds and 6 ones 9,602

Complete the statements.

1,985 $>$ ____

Any number greater

4,203 $<$ 4,000 + ____ + 4

Any tens number or any hundreds number greater than 200.

Reasoning

I have 13 numbers:

I am thinking of a number, 3,228
than 3,000, but smaller than 3,282

3,822

The digits add up to 15 4,560

What could the number be 4,650

4,506

Write down as many possibilities as you can. 4,605

3,660

3,606

The difference between the 3,147

smallest digit is 6. How many numbers do you now have? 3,174

3,417

3,471

Clue – there are 13 possibilities

Mastery

Use digit cards 1 to 5 to complete the comparisons:

564 \square

Possible answer:

5641 $<$ 5732

2 \square 3

2438 $>$ 2335

You can only use each digit once.

English

This is the picture the boy sees!

Foundation Subject – Science

Make sure you keep the information you recorded because you'll need it for your next science task...
