

## What should we remember before handling food?

Personal hygiene

 remove any jewellery (theses could spread germs or fall into what you're cooking).

Tie back your hair if it is long. Hair can
fall into food or get caught in equipment.

- Wash hands with soap and water

How to hold a knife - Make sure your fingers are tightly wrapped around the handle, and your thumb and index finger are near the blade.

The Claw - This is a way to hold the food you are cutting so that your finger tips aren't in the way of your knife blade.
