Maths- making equal groups

There are 4 groups of 5 pencils

There are $\mathbf{4}$ groups of $\mathbf{2}$ flowers
Did you complete Josh's drawings to make equal groups?

## Reasoning and problem solving

Dora and Rosie are making hay bundles.

Who has made equal groups?

Explain how you know.

Possible answer:
Dora has made
equal groups
because she has 3
groups of 3 hay bundles.

Rosie has two unequal groups.

Use concrete materials or pictures to complete the questions.

Alex has 4 equal groups.
Show me what Alex's groups could look like.

Whitney has 3 unequal groups.
Show me what Whitney's groups could look like.

Children will show 4 groups where there are the same amount in each group for Alex and 3 groups that are unequal for Whitney.

Encourage
children to do this in more than one way.
