Maths- add equal groups

There are 2 equal groups with 3 in each group.
There are 2, 3's.
3+3=6

There are 3 equal groups with 4 in each group.
There are 3, 4's.
4+4+4 = 12

Did you complete the table? Ask a grown up to check it for you.

	Draw It	Say It	Add It

Problem solving

Which one does not belong?

Two 5s   Ten

5 + 5

What do we need to change to make
them all represent the same?

The three 5s do
not belong. We
would have to take
away one five.

Phoneme spotter

Dear Paul,

I wanted to remind you that tomorrow is the launch of the book 'The Haunted House', by the author Alex Whiteoak.

Alex Whiteoak

He told me that he has been working on the book since August. It took him such a long time because he was exhausted after his last book tour.

At the launch, since it is autumn time, we went for an orange, red and brown theme. There will be drinks, hot dogs and burgers with sauce. After the food, Alex will read a section from the book.

I really hope that the audience give Alex a huge applause. Maybe some people might want his autograph too!

Looking forward to seeing you,

Laura

Answers

1. Find and circle all the words in the text that contain an '**au**' grapheme.

   How many words did you find?　 **12**
