

## Shotton Hall Primary School

Working together to

**SHINE**

**Successful, Happy, Inspired and Nurtured towards Excellence**

Hi Class 5. Here are your learning activities for Wednesday and we are continuing our work on time. Remember, if you find this difficult, you can spend more time practising telling the time accurately, using clocks to help you, rather than moving on to the reasoning and mastery questions.

Enjoy your day,  
Miss Elwick

### Maths

Today we are telling the time using quarter to and quarter past. You could watch this youtube clip which helps to explain this:

[https://www.youtube.com/watch?v=5tmzM\\_9I4aw](https://www.youtube.com/watch?v=5tmzM_9I4aw)

I have included some fluency, reasoning and mastery style questions on our website for you to try.

### English

This sheet has different activities for practising correct use of spelling, punctuation and grammar. Just write your answers on paper, and then check the answer sheet on Friday.

A compound word is when two words are joined together to make a new word. For example **rain** and **bow** make **rainbow**. Watch the clip below at BBC bitesize, and then use the worksheet 'Making compound words'. How many compound words can you find?

### Topic work – Science - Minibeasts

Design a new minibeast and give it a name. Choose a microhabitat where it would live and then draw your minibeast thinking carefully about the colours and features that would be good for a creature living in that habitat. Then write a fact file about your minibeast explaining facts such as where it lives, how it looks, what it eats and any special abilities it has.
