Maths – Time

Who is telling the time correctly?

The time is half past 6

Dora

The time is half past 3

Amir

The time is half past 2

Alex

Can you spot the mistake they've made?

It is half past 11 so the hour hand should be on the 11

Alex

Is Alex correct?

Explain your reasoning

Answers

Q1 – The time shows half past 2. Alex is correct

Dora has mixed up the hour and minute hands (long hand is for minutes, short hand for the hours)

Amir has read the hour hand incorrectly.

Q2 – Alex is not correct, at half past 11, the hour hand will be half way between the 11 and the 12.

English – The Lost Happy Endings

The first sentence of the story is 'Jub's job is important and she was very proud of it.'

Here are some pictures of Jub (I have also posted these as larger pictures so you can see them better).

What do you think Jub's job is?

Why is it so important?

Why is she proud of it?

Answers – Again there are no wrong or right answers. You will find out Jub's job very soon!

Foundations Subject – Science

Edible Plants

Did you know we eat many different parts of a plant? Can you create a list of foods we eat that come from each of these plant parts? I've given you an example for each one to help you get started.

Roots - carrots

Stem - celery

Leaf - spinach

Flower - broccoli

Seed - sweetcorn

Fruit - tomato

How many different parts of a plant have you eaten today?

Challenge - Can you explain the difference between a fruit and a vegetable?

Answers – you may have found more!

Roots - carrots, onions, beetroot, parsnips, potatoes, radishes, turnips

Stem – celery, broccoli, rhubarb, asparagus Leaf - spinach, lettuce, parsley, cabbages

Flower - broccoli, cauliflower

Seed - sweetcorn, peas, pumpkin seeds

Fruit - tomatoes, bananas, berries, pears, plums, pineapples, cucumbers, grapes, pumpkins

Challenge - Can you explain the difference between a fruit and a vegetable?

A fruit has seeds inside it. A vegetable is what we call any other part of a plant that we eat.
