Successful, Happy, Inspired and Nurtured towards Excellence

Maths

Round these numbers to the nearest ten and perform a mental calculation. Decide if your answer is close enough to the answer given to suggest that it is correct.

	Calculation	Rounded Approximation	Does the original answer look correct based on rounded estimation?	Corrected Answer if necessary (You may need to recalculate)
e.g.	$456 + 242 = 698$	$460 + 240 = 700$	Yes!	
1.	$371 + 287 = 558$			
2.	$548 + 342 = 890$			
3.	$784 + 329 = 1113$			
4.	$234.8 + 172.9 = 307.7$			
5.	$896.6 + 402.7 = 1299.3$			
6.	$345.45 + 378.31 = 623.76$			
7.	$1762.99 + 37.22 = 2100.11$			
8.	$4873.23 + 151.82 = 5025.05$			

Rounding in context

Look at the answers to these word problems. Can you suggest what a sensible rounded answer would be and why?

Question	Calculation	Units	Rounded Answer	Reasoning
e.g. If George wants to buy a tablet that costs £112 and he has 27 weeks to save up for it – how much should he save per week?	$112 \div 27 = 4.14811481$	Pounds	£4.15	I have rounded it to the nearest actual sum of money above what he needs so he can save real money and still have enough.
1. Charlie wants to make a rope bridge in his garden. He has calculated that he will need 6 pieces of rope each 1.23 cm long. The shop sells rope by the metre – how much will he need to buy?	$1.23 \times 6 = 7.38$			
2. There are 137 people going on the trip to zoo and each minibus can take 13 passengers. How many buses will need to be booked for the trip?	$137 \div 13 = 10.538461$			

English

Alma continued

1. Watch this video to remind yourself about how to use inverted commas (speech marks).

<https://www.youtube.com/watch?v=6-YFmLctwDY>

2. Imagine that your character's doll can speak. What might it say to the girl/boy? Would it use commands, questions and exclamations? **Use the resource sheet to create speech bubbles.**
3. Now use these ideas to continue your story. Start a new paragraph and write out your speech.

Targets for Success

- Don't make the dialogue too long
- Use inverted commas around the spoken words.
- Use other speech punctuation.
- Include a reporting clause.
- Put the words spoken by a new speaker on to a new line.

Example:

The doll exclaimed, “Stay away!”

“Why?” Alma asked, sounding puzzled.

Your character's doll

Topic
French – travel

Take a look at the map below. Identify the numbered countries and name

them in French.

1) _____

4) _____

2) _____

5) _____

3) _____

6) _____

4. Locate and colour the 7 continents on the map

L'Europe : *Jaune*

L'Asie : *Bleu*

L'Océanie : *Rouge*

L'Amérique du Nord : *Orange*

L'Afrique : *Vert*

L'Amérique du Sud : *Violet*

L'Antarctique : *Rose*
