Foundation Subject – Geography

1. Use atlases, information books and the Internet to explain the geographical location of three places in the Americas:

- a place near the arctic circle;
- a place in the tropics;
- a place in one of the temperate zones.

Place Name			
State and/or country			
Capital city			
Coordinates (latitude and longitude)			
Hemisphere			
Size (area, etc.)			
Natural (physical) features			
Time zone			
Typical weather (rainfall, summer and winter temperature, etc.)			

2. Find and describe other places in the world that share similar physical features with each of your chosen locations in the Americas. Explain why this is this case.
