

# Parts of a Kite

# Parts of a Kite

Line

Prevents the kite from flying away. Thicker lines are stronger.

# Parts of a Kite

Spars

Give a kite structure. Some have special names like “spine” and “spreader”.

Spine

Main backbone of the kite. Gives structure to the kite.

Sail

Directs the air to give the kite lift.

# Activity

Draw and label the different parts of a kite.

Try to explain the job of each part.
