

Cut out and decorate the magic carpet above or you may like to draw your own and cut it out. Attach a stick or piece of card to the back. Use the map below to draw your magic carpet ride adventure, showing where your adventure started and the amazing things you see along the way. You might like to use the poem to give you some ideas!

What happens in the last box? Where do you land at the end of your adventure?

You may like to add labels to your drawing too. Ask a grown up to help you cut along the dotted line. Insert your magic carpet and take it for an adventure along the page! Tell your grown up all about it as you go and remember to use some interesting words when talking about what you see!
