

**Year Four 24/6/20**

**Maths**

**Fluency**

1. There is 57 pence.  
There is 5 pounds.  
There is £5 and 57p  
There is £5.57
2. There is 8 pence.  
There is 7 pounds.  
There is £7 and 8p.  
There is £7.08

Please note there is more than one possible way to complete this part whole model.

3 357p = £3.57 307p = £3.07 57p = £0.57 370p = £3.70

Reasoning - Rosie is correct. Whitney has not written the 6 p in the correct column. Teddy has not understood how many pence there are in a pound, therefore his place value is incorrect.

**Mastery**

- Never •
- Sometimes e.g. £3.05 •
- Never – she can only choose three coins so the largest amount she can make is £5 •
- Always, because every coin is a multiple of 5 pence

**English**

Here are some representations of Hades, Charon and Cerberus in art work. I wonder if your pictures are similar?

**Foundation Subject – Science**

Human Threats	Natural Threats
Deforestation	Earthquakes
Water pollution	Volcanos
Plastics	Droughts
Houses	Storms
Invasive species	Floods
Towns/cities - urbanisation	Hurricanes
Chemicals	wildfires
Air pollution	
Poaching
