Foundations Subject – It is Children's Art Week this week! So, as part of your home learning today I have attached some Mindfulness Colouring Activities for you to choose from. See if you can complete at least one of them. If you don't have access to a printer, please don't worry. You can try to sketch something similar yourself. Even doing an activity like letting your pencil wander all over a piece of A4 paper without taking it off, will create a lovely pattern for you to colour. Try and find a quiet place, relax yourself, take some deep breaths and focus your mind on things which are positive and that make your happy. I am sure you will be smiling when you are finished. Have a lovely weekend, everyone! 😊
