

Maths – With it being the last week this week, I thought it would be nice to complete some maths games using Y6 aspects of maths from across the year. The theme is 'pirates' - do the maths and crack the codes to find the pirate related words. Have fun! ☺

You could have a go at creating your own 'crack the code' maths game ☺

English – Since this is your last week in Primary School, I thought you could begin thinking about the next chapter of your School journey. You are all about to become Year 7s in a brand new school - it can be worrying and exciting all at the same time. I'm sure most of you have had some form of contact from your new school by now.

I want you to imagine you're sending a Postcard to your new school. Think carefully about what you'd like to say or ask.

You could also draw a picture on the front of the postcard!

Foundations Subject – Art

It's been a while since we've done some art so I thought today would be a lovely opportunity to get creative. The idea of today is to 'draw the other half'. This could be whatever you want it to be. For example: a portrait of a person (it could be referenced from a photograph of you or a family member), your favourite animal, a plant, a scene...

Here are some examples to inspire you!

Please be mindful of the skills you've used in your art lessons

- Sketching
- Shading
- Adding depth
- Colouring

I would love to see some of your work on Facebook! 😊 Enjoy!
