Maths- Fractions

There are **4** cakes.
There is **1** cake in each quarter.
A quarter of **4** is **1**.

There are **12** sweets
There are **3** sweets in each quarter
A quarter of **12** is **3.**

There are **8** peaches.
There are **2** peaches in each quarter.
A quarter of **8** is **2**.

Did you fill containers? Could you find a quarter full?

A quarter of 4 is 1.   A quarter of 8 is 2

1 is one quarter of 4   3 is one quarter of 12.

Problem solving

Mr. White has asked his class to put one quarter of the balls into the hoop.

Teddy: I'm going to put one ball in the hoop.

Whitney: I'm going to put three balls in the hoop.

Tommy: I'm going to put four balls into the hoop.

Who is correct? Can you explain any mistakes made?

Whitney is correct because one quarter of 12 is 3

Teddy has misinterpreted **one** quarter to just mean one.

Tommy knows that quarters are linked to fours but hasn't split the balls into four equal groups.
