Maths- Fractions

I'll let you in on a secret but shhh don't tell anyone!

To find one quarter you half it and half it again. For example 20. Half is 10 and half of 10 is 5. You half the amount or number you started with then you half it again. Easy peasy.

Share each quantity into four equal groups.

There are ___ cakes.

There is ___ cake in each quarter.

A quarter of ___ is ___

There are ___ sweets.

There are ___ sweets in each quarter.

A quarter of ___ is ___

There are ___ peaches.

There are ___ peaches in each quarter.

A quarter of ___ is ___

Use a range of containers and rice/water.

Can you show me a quarter full in each container?

Do they look the same or different?

Use counters to complete the sentences.

A quarter of 4 is ___

A quarter of 8 is ___

1 is one quarter of ___

3 is one quarter of ___

Problem Solving

Mr. White has asked his class to put one quarter of the balls into the hoop.

I'm going to put one ball in the hoop.

Teddy

I'm going to put three balls in the hoop.

Whitney

I'm going to put four balls into the hoop.

Tommy

Who is correct? Can you explain any mistakes made?

English

Keep practising your handwriting!

Foundation subject – History

Today you will place events in the order in which they happened. Watch the power point 'Seaside holidays Wednesday 15th July' in the supporting documents. Stop at the slide which says 'were you right' and discuss with a grown up. Continue your discussion for the remaining slides.
