Maths- Fractions – finding half

Find half of each amount.

Find half of the amounts and complete the stem sentences.

There are ___ beads.

Half of ___ is ___

There are ___ marbles.

Half of ___ is ___

Find half of the sheep.

There are ___ sheep.

Half of ___ is ___

Problem Solving (draw the grids using a ruler then shade in one half of the grid). How many ways can you do it?

How many different ways can you shade one half of the shapes?

English-Contractions

Watch the power point '**shortened words**' in the supporting documents. Copy out the sentences on the last written slide and shorten the words. For example we will becomes we'll. An apostrophe represents the missing letters. Once you have copied the sentences then reveal the answers and see if you were right.

I am going shopping today. My friend Lucy will be going too. She is a lovely girl. She will get the bus there but I will go by train. We are going to get lunch in town. I am going to bring an umbrella because it is going to rain. We will be meeting my sister and her friends this afternoon because they are going shopping too. My mum can not collect us so we will get the bus home. We will have to be home at seven o'clock this evening and we will not be late.

Foundation subject – History

Today, you will be searching for clues in photographs to find out what holidays were like in the past. Watch the power point 'Seaside holidays Wednesday 8th July' and look closely at the photographs. Write down your ideas on a spider diagram like the one shown below.
