Maths- Counting in 5's

$$5 \times 4 = 20$$

$$7 \times 5 = 35$$

= as $2 \times 5 = 10$ and $5 \times 2 = 10$, therefore they are equal

< as $3 \times 2 = 6$ and $4 \times 5 = 20$, therefore 6 is less than 20

➤ As $10 \times 5 = 50$ and $5 \times 5 = 25$, therefore 50 is greater than 25

Problem solving

Is Mo correct?

Every number in the 5 times table is odd.

Mo is incorrect because some of the multiples of the five times-table are even, e.g. 10, 20, 30

Explain your answer.
