

Shotton Hall Primary School

Working together to

SHINE

Successful, Happy, Inspired and Nurtured towards Excellence

Hi Class 5. Here is your home learning for Friday. If you are feeling fit, imoves have a sports moves challenge you could try at: <https://imoves.com/home-learning/1074> Don't forget to keep practising your 2, 5 and 10 times tables. Using TTRockstars <https://trockstars.com> will help make you a times tables star!

Have a good weekend,

Miss Elwick

Maths

We are going to do some more practising reading scales, but this time we are looking at measuring mass in kilograms. Read the information document and then try the questions.

English

Read the information text 'All about beaches' and then try the comprehension questions that are on the next page. As an extra challenge, can you make up your own question that another person could answer by reading this text?

Topic work

Your job today is to make a leaflet or poster to advertise what visitors can see and do in your seaside town that you designed last session. You are trying to encourage as many visitors as possible so you need to make it sound like an interesting or exciting place to visit. You should include a mixture of human and physical features in your leaflet or poster.
