English - The Lost Happy Endings

I will read further on in the story in today's video and look at the character of the witch. Today's task is to write a character description of the witch. Your character description should be around 8-10 sentences long.

Here are some questions to get you thinking about her. What does she look like? Where does she live? Which words are used in the story to describe her? Why has she taken the happy endings?

Answers – I will check your work on class dojo!
