

Maths

Today we will be using coins to make the correct amount. Go over counting 1p and 2p coins. You may also like to use 5p and 10 coins if you can manage.

Use the link below to practise paying for items using the correct coins. There are different levels to try. This game will work on a laptop, tablet or phone.

<https://www.topmarks.co.uk/money/toy-shop-money>

Have a go at playing shops with your family. Choose some items to sell, make a price label for them and use coins to buy something from the shop. Take turns at being the shopkeeper and the customer. Make sure you count the money carefully!

Answers

Well done if you managed to use the correct coins when paying for items. We hope you enjoyed shopping!

Literacy

Here are some mixed up sentences about boats. Write each word on a piece of paper and try to put them in the right order so that they make a sentence. Remember to look for the clues! Can you read the sentences?

1. sail. A can a boat have
2. go Some can boats fast.
3. big little tug pulls A boat boats.
4. cabin a You on can ship. sleep a in
5. boats Lots flag. a have of
6. ship very is A big. cargo

Answers

1. A boat can have a sail.
2. Some boats can go fast.
3. A little tug boat pulls big boats.
4. You can sleep in a cabin on a ship.
5. Lots of boats have a flag.
6. A cargo ship is very big.

Well done if you ordered all sentences correctly and could read them!

Foundation Subject – The World

Today we would like you to explore floating and sinking. Use a bowl of water, a paddling pool, the bath or the sink. Choose some things which can go in water to test. Have a go at predicting (or guessing) what will happen with each object. Then put it in the water to find out. Were you right?

Make a set of things that float and a set of things that sink. Talk with your grown up about why you think some objects float and some will not. Have fun!

As an extra challenge think how you could make something that will float sink, or how you could make something that sinks float!

Answers

We hope you had fun exploring floating and sinking. Sometimes light things might sink and heavy things might float. The shape is very important. Just think – ships are very heavy and they manage to float!
